Subject Index to Volume 6

(A) *Abstract* (E) *Editorial* (L) *Letter to the Editor*

Note: **Month of issue may be determined by the footnote on each page of this index**

Abstracts, grouped by subject:
  Absorption of Fat, 577
  Aldosterone and Potassium Metabolism, 580
  Atherosclerosis: Experimental Nutritional Studies, 95
  Atherosclerosis: Nutritional Aspects, 92
  Biochemical Methods and Tests, 191
  Cholesterol Absorption and Metabolism, 564
  Current Developments in Diabetes, 563
  Dental Medicine and Nutrition, 702
  Dietary Fats and Serum Lipoproteins, 693
  Fluorine, 188
  Fructose Metabolism, 86
  Items of General Interest, 195, 581, 705
  The Nervous System and Nutrition, 101
  Nutrition and Thyroid, 97
  Obesity, 88
  Protein Metabolism, 568
  Recent Studies on Ascorbic Acid, 700
  Russian Nutritional Literature, 705
  Sodium and Water Metabolism, 574
  Special Aspects of Diets, 561
  Vitamin A Metabolism, 572
  Vitamin B_{12} Absorption, 697
Adipose tissue, metabolic activity of, 671, 672ff
Adolescents, nutritional status of, 126
Adrenal gland, effect of fatty acid deficiency on, 624
Age, relation of vitamin E to, 50
Albumin metabolism, during starvation, 142
Alcoholism, liver in, 281
Alkali-isomerization, in determination of fatty acids, 592, 593
Amino acid(s)
  adult requirements of, 439 (D)
  effects on fatty livers, 244
  effects on liver lipid values, 490
  imbalance of, and nutrition, 487
  metabolism of, during starvation, 142
  plasma
    reduction of by carbohydrate infusion in diabetes and liver disease, 365
    relationship to blood sugar level, 371
  significance in nutrition, 492
  toxicities of, 491
  See also specific name
Anemia
  effect of dietary protein on blood regeneration, in parasitic infestations, 415
  macrocytic, and emotional disorders, 105
  pernicious, and vitamin B_{12} deficiency, 513
Antibiotics
  as eliminators of toxic factors, 467
  growth-promoting effect of, 467
  metabolic effects of, 469
  in nutrition and metabolism, role of, 466
  in posthemorrhagic shock, 469
  sparing effects of, 468
Antibody responses, and diphtheria toxoid, 120
Arteriosclerosis, in pyridoxine deficiency, 635, 636
Ascorbic acid
  deficiency, in adolescents, 403
  requirements of adults, 146
  studies on, 700 (A)
Atherosclerosis
  and diet, 310
  and dietary fat, 169 (E)
  and essential fatty acids, 628ff
  experimental nutritional studies in, 95 (A)
  high-linoleic-acid diets for, 632ff
  hypothesis of mechanism of, 629
  nutritional aspects of, 92 (A)
Aureomycin, effect on growth of school children, 430

Beriberi, 464
Betaine
  biosynthesis of, 200
  and the liver, 508
Biochemical methods and tests, 191 (A)
Blood, clotting mechanism of, 681ff
Bone, effect of fatty acid deficiency on, 615, 617, 619

Calcium
  and loss of, in hair, 136
  metabolism, 455 (A)
Calculi, from milk diets, 159
Caloric intake
  body adaptation to reduction in, 151
  supplementary, effect of late-night snack upon body weight and food intake, 354
Cholesterol
  absorption of, 607
  in atherogenesis, 630
  and atherosclerosis, 325
  and diet, 112
  and dietary fat, 169 (E), 171 (L)
  and low-protein diets, 310
  esters, in plasma, 604
  in fatty acid deficiency, 618ff
  free, in plasma, 605
  plasma
    decreased level with vegetable fat, 628ff
    origins of, 638ff
    relation of thyroid activity to, 642
  tissue, effect of plant sterols on, 644ff
Choline
  antagonists of, in metabolism, 254
  biosynthesis of, 40, 200, 211
    possible mechanisms of, 208
  CDP-choline as lipotropically active form, 217
  deficiency
    and fatty liver, 310, 504
    and renal lesions in rats, 253
    and vascular disease in rats, 274
  in human nutrition, 506
    requirements for, 211
  in metabolism of phospholipids, 235
  in regulation of lipid metabolism, 111, 221, 235
Chromatography, gas-liquid, 595ff
Chylomicra
  chemical composition of, 662
  fate of, 665ff
  quantitation of, 663
  transport and metabolism of, 662ff
Coagulation, blood, lipid participation in, 682ff
Creatinine-coefficient deficit, urinary steroids and, 531

Dental medicine and nutrition, 702 (A)
Dextrose, temperature responses to infusions of, 9
Diabetes
  high-linoleic-acid diets for, 632ff
  and plasma amino acids, 365
Diet(s)
  and atherosclerosis, 169 (E), 171 (L)
  and fatty livers, 247
  high-protein, low-cholesterol, 556
  Italian-American, 548ff
    bland, 552
    diabetic, 553
    fat-restricted, 553
    low-calorie, 554
    sodium-restricted, 552

Pages 1–104, January–February issue; pp. 105–196, March–April issue; pp. 197–334, May—June issue; pp. 335–458, July–August issue; pp. 459–582, September–October issue; pp. 583–714, November–December issue.

low-cholesterol, low-fat, 556
low-protein, effect on cholesterol levels, 310
low-sodium, 180
Diet lists
containing large amounts of linoleic acid, 632ff
reducing, 443
Dietary factors involved in fatty acid oxidation, 229
Diet Therapy:
Adapting Therapeutic Diets to the Eating Patterns of Italian-Americans, 548
The Amino Acid Requirements of Adults. A Review, 439
Emergency Feeding in Disaster, 77
The Physician's Role in the School Lunch Program, 172
D-Sorbitol, vitamin B_{12} absorption and, 30

Editorials:
Copper in Health and Disease, 75
Dietary Fat and Human Health: Current Recommendations, 169
Hypervitaminosis A: Its Broadening Spectrum, 335
Nutrition and a State Medical Society, 339
Vitamin B_{12} Absorption, 232
Emotions, and macrocytic anemia, 105
Endocrine glands, relation of vitamin E to, 56
See also specific name
Ethanolamine, synthesis of, from serine, 200
Ethionine, as an antagonist of methionine, 254

Factor I *See* Pyridoxine
Fat(s)
absorption, mechanism of, 606
deficiency, clinical signs in infants, 626
dietary
and human health, 169 (E)
and serum lipoproteins, 693 (A)
intake, and cholesterol, 115
intravenous
alimentation, 472
emulsions and temperature responses, 9
vegetable, and decreased cholesterol level, 628ff
Fatty acid(s)
absorption of, 606
analysis of
by alkali-isomerization-spectrophotometry, 592, 593
by gas-liquid chromatography, 595ff
in atherogenesis, 630
clot-accelerating activity of, 683ff
clot-inhibiting activity of, 684
deficiency
changes in tissue lipids and histology, 613ff
effect on fertility, 615
determination of, by ultraviolet spectroscopy, 587, 592, 593
function and requirements of, 650, 651
metabolism of, 636, 656ff
oxidation
and dietary factors, 229
in livers of protein-deficient rats, 222
in plasma, 663ff
unesterified, 669ff
saturated and monounsaturated, interconversions of, 652ff
transport of, across cell wall, 611
unesterified, in plasma, 669ff
in vegetable fats, and decreased plasma lipids, 628ff
See also specific name
Fatty livers, and nutrition in rats, 242
Fertility, effect of fatty acid deficiency on, 615
Fiber, dietary levels of, 523
Fibrinogen-fibrin conversion, 681
Fluorine, 188 (A)

Gastric function, and nutrition, 455 (A)
Glutamic-oxalacetic transaminase levels, effect of vitamin B_6 and INH on, 424
Glycerides, absorption of, 606
in plasma, 605
Goiter, endemic, 463
Gonads, effect of fatty acid deficiency on, 615, 616, 617
Growth
inhibition of, 430
stimulation of, 18, 430

Height, gain in, and vitamin B_{12}, 18ff
See also Growth
Heparin, and liproprotein lipase, 663
Hypercoagulability of blood, 686
Hypercholesterolemia, and coronary heart disease, 112
Hypertension
ethnic groups and, 6
etiology of, 1
sodium intake and, 1
Hyperthyroidism, cholesterol synthesis in, 642
Hypervitaminosis A, 335 (E)
Hypothyroidism, cholesterol synthesis in, 642

INH *See* Isonicotinic Acid Hydrazide
Interdepartmental Committee on Nutrition for National Defense, reports of, 342, 352
International Nutrition Committee, 350
Intrinsic factor, and absorption of vitamin B_{12}, 26
Iron
in the hair, and shampooing, 139
maternal deficiency of, and the newborn, 376

Pages 1–104, January–February issue; pp. 105–196, March–April issue; pp. 197–334, May–June issue; pp. 335–458, July–August issue; pp. 459–582, September–October issue; pp. 583–714, November–December issue.

Isonicotinic acid hydrazide
effect on glutamic-oxalacetic transaminase enzymes, 424
and pyridoxine deficiency, 427

Kidney, calcification from milk diets, 159
Kwashiorkor, 461
in children, fatty liver and, 298
and low cholinesterase activity, 164
protein metabolism in, 495

Lactic dehydrogenase, 424, 425
Lean-body mass, creatinine-coefficient deficit, and urinary steroids, 531
Lecithin, enzymatic synthesis of, 216
Letters to the Editor, 171, 333
Linoleic acid
and decreased plasma lipids, 629
diets high in, 632ff
in disease, 651
in human nutrition, 626, 632ff
metabolism of, 656ff
in reversal of atherogenesis, 630
Linolenic acid, metabolism of, 658ff
Lipemia, effect of heparin on, 663
Lipids
inclusion compounds of, 602ff
plasma, 587
column chromatography of, 604
decreased by vegetable fats, 628ff
peroxidation products of, 601ff
serum, effect of hypolipotropic diets on, 313, 314
tissue, fatty acid components of, 588ff
Lipoprotein lipase, in fatty acid production, 663ff
Lipoproteins, serum, and dietary fats, 693 (A)
Lipotropic factors, mode of action in nutrition, 197, 200, 216, 221, 235, 242, 254, 263, 274, 280, 298, 310, 325
Liver
in alcoholism, 281
contributor to plasma cholesterol, 638, 639
disease of, and plasma amino acids, 365
effect of fatty acid deficiency on, 618ff
in fat metabolism, 280
fatty
and kwashiorkor in children, 298
and lipotropic factors, 504
Liver therapy for vitamin B_{12} deficiencies, in alcoholics, 422
Lunch, school-lunch program, 172

Malnutrition, and fatty liver, 298
Metabolism
of amino acids and albumin, during starvation, 142
antibiotics and, 466
choline in, 221, 235
copper in, 75 (E)
fat, 280
lipotropic factors in, 504
fructose, 86 (A)
lipoprotein, and vascular diseases, 325
in mongoloids, 526
protein, and kwashiorkor, 495
Methionine
antagonists of, in metabolism, 254
nutritional requirements of, 508
in regulation of lipid metabolism, 111
vitamin B_{12} in metabolism of, 39ff
Methyl groups
vitamin B_{12} in synthesis of, 39ff
Minerals, body adaptation to low intake of, 151
Mongoloids, metabolic studies of, 526

Niacin requirements, 479
Niacin-tryptophan relationships, 479, 488
Nitrogen, and loss of, in hair, 136
Nucleic acid synthesis, and vitamin B_{12}, 46
Nutrients, human deficiency diseases and, 459
Nutrition
and alcoholism, 280
amino acids in, 487
and antibody responses, 119
choline in, 506
dental medicine and, 702 (A)
gastric function and, 451 (A)
lipotropic phenomena in, 504
nervous system and, 101 (A)
and a state medical society, 339 (E)
thyroid and, 97 (A)
Nutrition Briefs, 185
Nutrition News, 84, 182, 688
Nutrition Quotes, 84, 184
Nutrition studies, of growth factors in animals, 39
Nutrition surveys, results and recommendations
in Iraq, 415
in Iran, 349
in Korea, 348
in Pakistan, 349
in Republic of China (Taiwan), 351
in Turkey, 350
Nutritional surveys in adolescent children
ascorbic acid nutriture, 401ff
vitamin A nutrition, 126ff

Obesity, 89 (A)
supplementary food intake, 354

Pancreatic lipase, specificity of action of, 609
Pantothenic acid deficiency
antibiotic synthesis in anamnestic process, 119

Pages 1–104, January–February issue; pp. 105–196, March–April issue; pp. 197–334, May–June issue; pp. 335–458, July–August issue; pp. 459–582, September–October issue; pp. 583–714, November–December issue.

and the intestines, 65
and ulcers, 65
Pellagra, history of, 409
Penicillin, effects on growth of children, 430
Phosphatidyl ethanolamines, clot-accelerating activity of, 684ff
Phospholipids
absorption of, 607
biosynthesis of, 216
and blood coagulation, 681ff
Phosphorus, and loss of, in hair, 136
Pituitary gland, effect of fatty acid deficiency on, 615, 616, 617
Plankton, for human nutrition, 391ff
Polyunsaturated acids, in plasma, 587
Proteins
body adaptation to low intake, 151
deficiency, and anemia, 415
and fatty livers in rats, 242
Prothrombinase, formation of, 681ff
Pteroylglutamic acid deficiencies, and antibody synthesis, 119
Pyridoxine
deficiency, 424
in anamnestic process, 119
and development of atherosclerosis, 635, 636
and glutamic-oxalacetic transaminase levels, 424
in metabolism of fatty acids, 636
and transaminase enzymes, 424

Riboflavin, deficiency of, in Near and Far East diets, 347

Safflower milk, 632ff
School-lunch program, 172
Scurvy, and ascorbic acid experiments, 147
Serine, synthesis to ethanolamine, 200
Shampoo, effect on calcium, phosphorus, and iron content of hair, 139
Sodium, intake of, in American male, 1
urinary excretion as index of, 1
Sorbitol, and vitamin B_{12} absorption, 547 (L)
Sterols
absorption of, 607
plant
absorption and metabolism, 645
and tissue cholesterol levels, 644ff

Temperature, responses of, to dextrose and fat infusion, 8
Tests, biochemical, 191 (A)
Thetins, and the liver, 508
Thiamine, deficiency of, in rice-eating populations, 348
Thrombin, formation of, 681
Thromboplastin, 682
Thyroid gland
and cholesterol synthesis, 642
nutrition and, 97 (A)
Tocopherol *See* vitamin E
Trace elements, copper, 75 (E)
Transaminase, blood levels of, effect of INH and vitamin B_6 on, 424
Transmethylation
reactions, vitamin B_{12}, folic acid in, 203
vitamin B_{12} function in, 35
Triglycerides, and plasma cholesterol level, 639
Tryptophan
conversion, 480
deficiency, and antibody synthesis, 119
human requirements of, 482
load test, 426

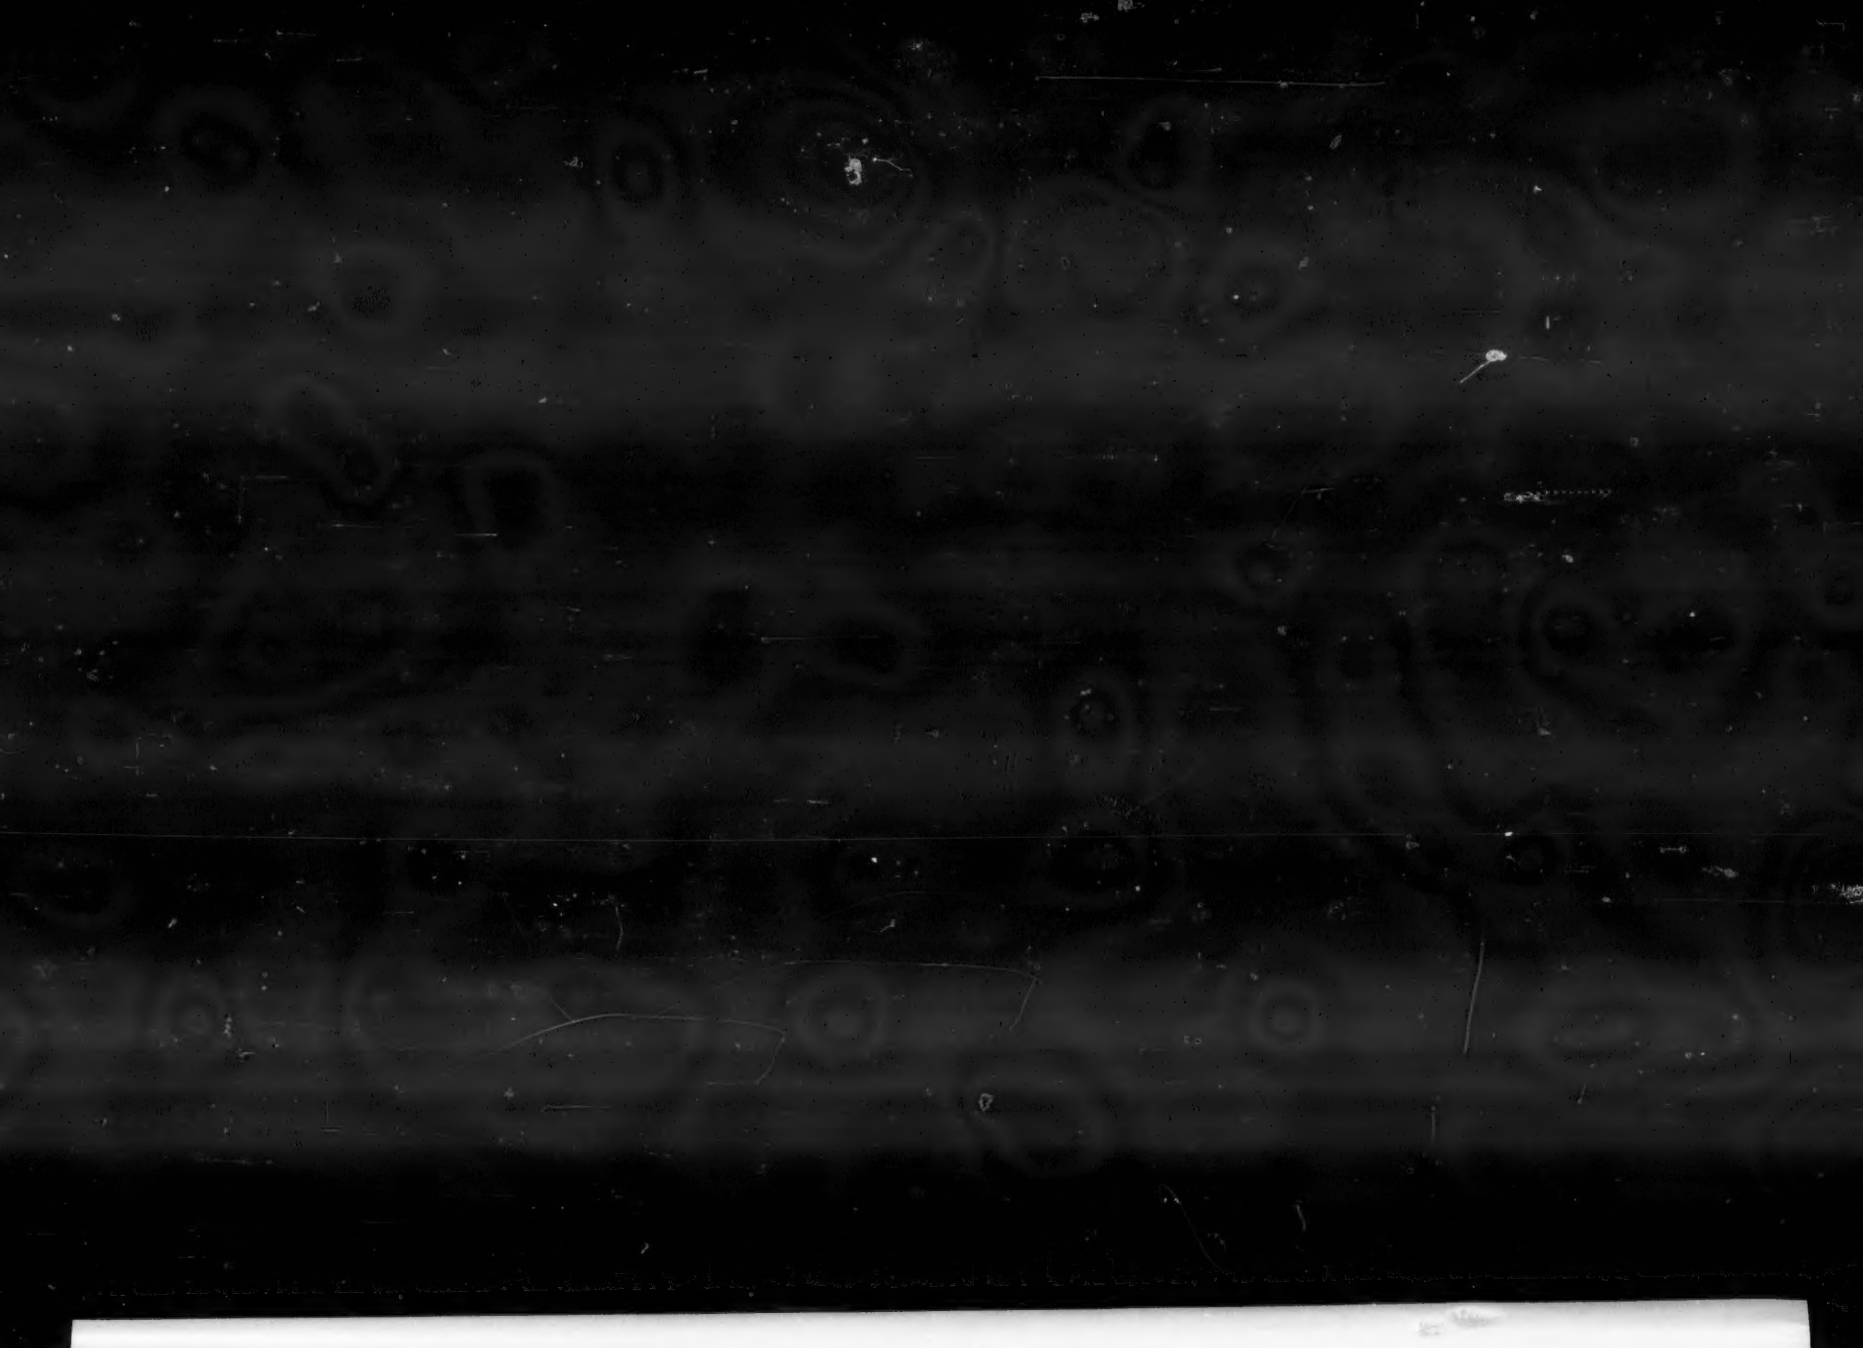
Urinary steroids, and lean-body mass, 531
Urine, sodium concentration of, 1

Vegetable fats, 644
and decreased cholesterol level, 628ff
Vegetarianism, nutritional studies of, 523
Vitamin(s)
body adaptation to low intake, 151
deficiencies, and antibody synthesis in anamnestic process, 119
intestinal flora as source of, 466
Vitamin A
assessment of, clinical, dietary, and laboratory, 126
biomicroscopic examination for assessment of, 126
and carotene levels, 128
nutriture in adolescents, 126
Vitamin B_6 *See* Pyridoxine
Vitamin B_{12}
absorption of, 26, 30, 386, 697 (A)
effect of intrinsic factor on, 26
effect of pyridoxine deficiency on, 390
in gastrectomized patients, 387
methods for measuring, 386
animal nutrition and, 34
biosynthesis of, 246
and D-Sorbitol, absorption of, 30
deficiency, 18
in alcoholism, 422
and pernicious anemia, 513
effect on growth in children, 18
and folic acid in transmethylation reactions, 203
and the liver, 422
metabolic functions of, 34ff
nucleic acid synthesis and, 46
in neogenesis of methyl groups, 210

Pages 1–104, January–February issue; pp. 105–196, March–April issue; pp. 197–334, May–June issue; pp. 335–458, July–August issue; pp. 459–582, September–October issue; pp. 583–714, November–December issue.

saturation studies with, 535
Vitamin E, 455 (A)
in endocrine glands and viscera, 56
in tissue, 50, 61
death, relation to, 53, 54
accidental, 53
age of, 54
cause of, 54
effect of storage on, 61

Weight
caloric equivalents of gained or lost, 542
gain of, and vitamin B_{12}, 18ff, 34ff

Xanthurenic acid, excretion of, in pyridoxine deficiency, 14


Pages 1–104, January–February issue; pp. 105–196, March–April issue; pp. 197–334, May–June issue; pp. 335–458, July–August issue; pp. 459–582, September–October issue; pp. 583–714, November–December issue.
